Will Cassidy's magic help her and the others? Cassidy is fighting to get herself and others out alive and out of the games. **Urban Fantasy winterfest** she was flat...surprised she made it to 40 years old but portrayed as a ya maybe story was written as the FMC was in 20's but author tried to cater to older reader group and age her up.... **Winterfest paranormal books** not sure character might be bipolar as one minute she is fierce next she is a clueless doormat...almost like two different author's were trying to write same story but neither are on same page as the character's personality...but not surprised her ex cheated. **Winterfest kennett square** Most annoying thing about this character she took learning vamps supes exist fairly easy but she had issues with the journal exposing writing on the page...you would think she would be excited to read it and make it a priority to figure out and navigate this world.... **Winterfest fort worth** I started rooting for FMC to fall into the Zappa thing and make her disappear and let Cloe take over as the FMC...but overall felt like I was reading a horror book written for 13-14 year olds that just includes drinking. **Winterfestival amsterdam 308** After finding herself deep in Colorado trying to settle her aunts estate Cassidy just wants to leave town and head home to her daughter Shay but she somehow gets detained an unwilling contestant in the Winterfest games. **Winterfest bushranger** will they live thru it? This story just gets better with each book ! 308

Now she must fight to save herself and her friends. I was completely enthralled throughout this book. It kept me guessing with each turn of the page. She created a story full of suspense and mystery. Great characters Couldn’t put the book down. It's so addictive! I love Roman and Cassidy. I can't wait to see what happens next. whether they want to participate or not. Cassidy soon realizes that she’s in over her head. Place your bets. They find an ally in Roman. He is a wild card. I was very curious as to what his endgame is. Although she is not the only one up to trouble. There is Desmond as well. The games of Winterfest are vicious. There is definitely blood spilled. I don't know if I would be able to survive them. I can't wait to read the next book in this series. Cassidy now has a tattoo that says Winterfest Contestant. I will say the games are stuff nightmares are made of. The ending makes you go what just happened. Book 3 I am waiting but hurry up. 308 SUPER CLEAN....ZERO SPICE....NUN APPROVED....suppose to have a 40 year old FMC. but nooooo. Needless to say will not finish this series. Berdel has a good thing going here. Nope that’s a no-no she will attend per Serenity. Growing up Donna read a lot of spooky books.
