5 stars obviously Classic Rock Albums: NirvanaNevermind 5-star Review:Nevermind: Nirvana by Jim Berkenstadt“Nirvana is the best band in the world at singing ‘yea yay yah yeahayea. **Book Classic Rock albums in order** It was enlightening to read about the recording process of this multi-platinum/Diamond certified magnum opus (the phenomenon that followed makes me use the word rather liberally) by the band that just wanted like-minded people to listen to their music and promote related acts but managed to move several generations of music lovers across the globe. **Classic Rock Albums book list** I was under the impression that it was a demo tape (which it eventually became) as opposed to a second LP under Nirvana's older label with the same producer as on Nevermind; bonus that he was a small-time producer at the time and it was a gamble that paid off. **Nonfiction Classic Rock albums photos** And while I love Nevermind as it is I definitely cherish the amped up guitars on the Smart Sessions more with the In-Bloom version recorded here especially outclassing the one on Nevermind. **Book Classic Rock albums list** But interestingly while he basically regurgitated Chad's drum lines on the songs that had been recorded during the Smart Sessions one cannot argue that his drum fills were so much more organic as compared to Chad's which were pivotal to elevating the tunes that much. **Classic rock albums released in 1973** I'd love to read something similar for few other rock albums that are important in rock music (in my book) - The Wall (Pink Floyd) Loveless (My Bloody Valentine) Definitely Maybe/(What's the Story) Morning Glory/Be Here Now (Oasis) Blood Sugar Sex Magik/Californiacation (RHCP) Hybrid Theory/Meteora (Linkin Park) - I'm sure there are more that I am missing. **Nonfiction Classic Rock albums released** Off on my hunt to find these gems! Classic Rock Albums: NirvanaNevermind Nevermind was the album that took Nirvana out of Seattle's alternative rock scene and turned them into a worldwide mainstream sensation:

Nonfiction Classic Rock albums 2021
