But it still made me sad. His talks were written about in newspapers. People came from all over the world to hear him talk. I didn't know that saltwater crocodiles were considered endangered. He was forty-four years old.? title. This Who Was? book was the 100th title in the series. It provides visual pictures as well to engage the reader. 0448488388 I really miss Steve Irwin. I grew up watching the crocodile hunter. I never missed an episode. His legacy lives on through his beloved wife and children. 0448488388 Good solid biography of The Crocodile Hunter. Engaging narrative and not too many sidebars. I remember watching him on TV. He was so amusing. You could tell that he genuinely loved all the animals. I wondered if that info came from his dad. I hated the black and white comic book illustrations. The cover is really misleading. I thought it should have started with his birth. His first playmates were kangaroos. Bob taught him that some animals are dangerous. The water was being polluted and making them sick. Inside Steve's head. He taught her to stay in the boat and be quiet. Like the Komodo dragons in Indonesia. We've seen the show. We're reading the

book to learn about Steve. Crikey is like wow! Swag is a bedroll. The bush is outside of town. Never never is the outback. Chockablock is crowded. Down under is for a Australia and New Zealand. Lob in is stop by for a visit. I didn't know that Steve and Philippe Cousteau Jr.I didn't care for the way Steve's death was handled. There was definitely a better way to do that. Let's sound as violent as we can. The end actually made me cry.I didn't know he had a whole day. But it must just be something the series does. Or Bindi had been born And I didn't like that. She lived in West Cork Ireland for many years. She is a mother of two with three grandchildren..
