And enjoy Trisha Telep

Like most people reviewing this there were definitely stories I liked and stories I didn't but I only found myself skipping through the pages on two stories that seemed to include fanciful details that were uninteresting and seemed unrelated. **The mammoth hunters read free online** A definite warning to everyone reading that the last story in the book is drastically different and sticks out like a sore thumb! I thoroughly enjoyed a lot of them and I couldn't pick a favourite! I was surprised about the length of them and the quantity. **The mammoth hunters read free online** I'd say nearly all the books were of high quality and although I am not a grammar fan.

With a brave heroine and the noble sacrificing hero) *** Remember the Blood - Vicki Petterson - Two vampires are reborn without memories each year but strive to bring forward clues to 'remember' each other and their love. **The mammoth book of extreme science fiction** 5 stars - didn't like any of the characters and the style was too vague to be engaging) *** The Midday Mangler Meets his Match - Rachel Vincent - An ordinary everyday vampire teen and her younger sister discover a use for their vestigial fangs when they have a run in with a killer. **The mammoth book of best british mysteries** (3 stars - on the humorous side but a bit overboard on the 'normal vamp' slice of life bits) *** The Music of the Night - Amanda Ashley - A phantom of the opera obsessed woman gets a chance to star in her favorite fantasy when she meets her own phantom. **The mammoth book of historical whodunnits** (4 stars - I like the tragic phantom theme in this pleasant story) *** The Day of the Dead - Karen Chance - From the Cassandra Palmer series.

Trisha Telep was the romance and fantasy book buyer at Murder One a London crime mystery and romance bookstore; shes now co owner of the virtual bookstore {site_link} www. **The mammoth book of historical whodunnits** Adams Cathy Clamp Susan Sizemore Dina James Colleen Gleason Barbara Emrys Savannah Russe Shiloh Walker Vicki Pettersson Rebecca York Rachel Vincent Amanda Ashley Karen Chance and Nancy Holder. **The mammoth book of historical whodunnits** These ain't your mother's vampires! *** Fade to Black - Sherri Erwin - A professor's tryst with a gorgeous student brings a whole new meaning to 'unsafe sex' when he infects her with the 'vampire' virus. **The mammoth hunters read free online** *** The Righteous - Jenna MacLaine - A sorceress and a King put events in play to establish a group of vampires to police their own which is the catalyst to bring a vampire and a woman who stakes them together in Paris. **The mammoth hunters read free online** *** Love Bites - Kimberly Raye - From her Dead End Dating world vampire Thomas seeks to rid the world of his evil former master and to aide a magical mercenary with a forbidden power to save her missing brother from the evil vamps yearly human hunt. **The mammoth book of historical whodunnits** Vampire Liam's secret negotiations with the House of Phoenix cause him to be accused of treason against his clan his punishment is imprisonment with his human lover as the only source of blood but their love holds the key that may free them. **The mammoth book of historical whodunnits** if you like romance and if you like vampires how can you pass this one up? There are 25 that's right 2-5 short stories in this 'mammoth' book! Most of the authors haven't hit the biggest of the big time but many of them are authors I follow. **The mammoth book of extreme science fiction** But hey even if you don't like one of the stories it only takes a few minutes to read! Some stories are funny some are more serious some are pretty sexy and few I still don't understand. **The mammoth book of historical whodunnits** Trisha Telep AND THE OSCAR GO TO...The best :* Dancing With The Star by Susan Sizemore (the ending was perfect and hilarious! Great story)The worst :* The Music of the Night by Amanda Ashley (bored me to death) The great deception :* Dreams by Keri Arthur (I was expecting more from her)Best couple :* The Righteous by Jenna MacLaine Good read I didn't find that any of them were badly written. **The mammoth book of best british mysteries** The plots were quick and although there was definitely some cringe-worthy clichés if you are a fan of the Vampire Romance genre then you have to accept them! I liked the balance between the more romantic stories and the more action-y ones

and I have to say quite a few of them made me want more! I actually searched out the authors for more of their work as I enjoyed them that much! It gets four stars as although I think it was a great compilation of Vampire Romance stories I wouldn't call it truly Mammoth and I definitely would of put a more varied type of plot in there. **The mammoth book of extreme science fiction** (I should point out that I am a huge fan of short stories and I've read A LOT so where others may not like the fact they don't have a beginning or an end - it's common place in a lot of short stories. **The mammoth book of historical whodunnits** For these stories alone the book was worth reading and I will definitely buy The Mammoth Book of Vampire Romance 2 which is due in September 2009! Oh before I forget: my favorite stories were (of course) by Karen Chance Lilith Saintcrow Colleen Gleason and Shiloh Walker (actually no surprise there. **The mammoth hunters read free online** Everything moved so quickly like the author was trying to pack everything she wanted into it but didn't have enough space to write it all which gave the story a really abrupt ending. **The mammoth book of historical whodunnits** Fangs for Hire | Jenna Black - a vampire assassin receives a contract to kill her client's stepfather \ 4 stars I doubt I'm gonna give any of these stories 5 stars so 4 stars is really good. **The mammoth book of best british mysteries** I liked both the characters which is always a plus especially in these short stories where i found most of the characters just plain annoying and i didn't think the relationship between the 2 characters become all 'deep' and 'meaningful' after meeting twice. **The mammoth book of historical whodunnits** Knowledge of Evil | Raven Hart - a vampire with a thirst for knowledge meets a vampire obsessed professor who also thirsts for knowledge only to realise that she knows he's a vampire \ 1. **The mammoth hunters read free online** Viper's Bite | Delilah Devlin - a vampire feels a deep connection with a woman and needs to take her memories away from her \ 4 stars yay for another relationship that doesn't pop out of nowhere! It was more of an emotional story compared to the other ones so it seemed like one of the better romances. **The mammoth book of historical whodunnits** I didn't find the characters annoying and i liked that the slayer was conflicted about her profession What's at Stake | Alexis Morgan - a chancellor must prove the innocence of a vampire or stake him \ 3. **The mammoth hunters read free online** 5 stars i think most people will find this story more interesting than i did but at this point I was getting frustrated with the length of this book and just wanted it to finish. **The mammoth book of extreme science fiction** In Which a Masquerade Ball Unmasks an Undead | Colleen Gleason - from the Gardella Vampire series Victoria is unable to fully pursue her love interest when she recognises that there is a vampire at the Masquerade Ball \ 3 stars interesting enough. **The mammoth book of historical whodunnits** It seemed like a deleted scene from the first book in the series A Temporary Vampire | Barbara Emrys - a vampire discovers a woman who performs as a mime \ 2 stars it was okay. **The mammoth book of best british mysteries** Overbite | Savannah Russe - a dentist is given the opportunity to take on clients from the vampire world and fulfill his secret desires \ 2 stars different and interesting but not enough to really get my attention. **The mammoth book of historical whodunnits** Hunter's Choice | Shiloh Walker - a vampire slayer re-examine's her belief on vampires when an old flame who happens to be a vampire appears \ 4 stars again they previously knew each other and were lovers so the romance was believable. **The mammoth book of extreme science fiction** Remember the Blood | Vicki Pettersson - forgetting their love for one another each year two vampires attempt to ensure they will remember each other for the new year \ 2 stars i almost understood nothing from this. **The mammoth book of historical whodunnits** The Midday Mangler Meets his Match | Rachel Vincent - a mad killer is on the loose abducting and killing young children so when her little sister is abducted Kez goes after them \ 3 stars The romance is already happening so it wasn't very romance focused based mostly on the killer and the abduction but it was still good. **The mammoth book of historical whodunnits** The Music of the Night | Amanda Ashley - a woman with a large interest in the Phantom of the Opera gets to meet the Phantom of her interest \ 3 stars This isn't an appropriation of the Phantom of the Opera the male lead is the Phantom. **The mammoth book of best british mysteries** Vampire Unchained | Nancy Holder - a vampire is imprisoned with his human lover as his only source of blood \ 2 stars didn't hold my interest particularly well and again i was impatient with finishing this book as a

whole so I didn't really understand what was happening at times A Stand-up Dame | Lilith Saintcrow - a PI wakes up as a vampire and attempts to solve the case of his death or undeath \ 2 stars not too bad i guess but again with the romance. **The mammoth hunters read free online** Trisha Telep Mammoth Book of Vampire Romance - BIG Book Big Name Authors Short stories - not all are romances Yes the Mammoth Book of Vampire Romances is truly MAMMOTH containing 25 short stories. **The mammoth book of extreme science fiction** Despite the title only about half of the stories in the book are 'romances' though most have some sex but they do all have vampires and most all have a key element of the story associated with the vampire's bite: bringing a transformation granting immortality unlocking or stealing memories sealing a bond or with the refusal of the acceptance of its offer breaking a heart. **The mammoth book of extreme science fiction** A few of the entries tied into the authors' existing series Gleason's and Arthur's read like deleted scenes from early books and Devlin's Holder's Raye's Chance's and Saintcrow's (the first of her two) explore other characters/pieces of their worlds. **The mammoth hunters read free online** 5 = really liked it; 5 stars = loved it) *** Fade to Black - Sherri Erwin - A professor's tryst with a gorgeous student brings a whole new meaning to 'unsafe sex' when he infects her with the 'vampire' virus. **The mammoth book of historical whodunnits** (3 stars - no romance and the connection between the leads was odd) *** Fangs for Hire - Jenna Black - When a vampire hit woman finds her oh so sexy prey is not what he seems she just might have to consider rewriting her 'contract'. **The mammoth book of historical whodunnits** (4 stars - both the leads were interesting and I like the way they found to feed their hungers) *** The Righteous - Jenna MacLaine - A sorceress and a King put events in play to establish a group of vampires to police their own a hereditary vampire slayer flunks her final test when instead of finishing off the vampire she's staked she takes him her home to heal. **The mammoth book of best british mysteries** 5 stars -humorous but a bit on the cutesy side) *** What's at Stake - Alexis Morgan - A legal enforcer must either prove the innocence of the vampire she's secretly loved or she must put him to death. **The mammoth book of extreme science fiction** (4 stars - more on the fantasy side I liked this one a lot) *** Coming Home - Lilith Saintcrow - Dante Valentine's foster daughter Liana is hired by the Nichtvahren who broke her teenage heart to kill his maker. **The mammoth book of historical whodunnits**) *** To Ease the Rage - CT Adams & Cathy Clamp - A police officer will join with her undead partner to find the strength to protect her city from vamps that threaten the peace. **The mammoth book of historical whodunnits** 5 stars - a long dream sequence not a fan of those and the italics bugged me after a few pages) *** Play Dead - Dina James - A vampire finds his soulmate and challenges the leaders of his clan for the right to choose his own bride. **The mammoth book of historical whodunnits**) *** In Which a Masquerade Ball Unmasks an Undead - Colleen Gleason - Gleason's vampire hunting debutante Victoria tries to pursue her attraction to Rockley while fighting off vamps at a masquerade ball with a little help and snide remarks from Max. **The mammoth book of extreme science fiction** 5 stars - One of the few historicals this felt like a deleted scene from the first book but missing the more serious events from the books which play against lighter scenes like this one) *** A Temporary Vampire - Barbara Emrys - A vampire discovers a captivating 'vampire' actress in New Orleans. **The mammoth book of historical whodunnits** 5 stars - Liked the vamp & it had a nice feel to it vampire Thomas seeks to rid the world of his evil former master and to aide a magical mercenary with a forbidden power to save her missing brother from the evil vamps yearly human hunt. **The mammoth book of historical whodunnits** (4 stars - Thomas is a favorite of mine and it was fun to see a bit more of him) *** Vampire Unchained - Nancy Holder - A return to Holder's House of the Blood/Shadows/Flame/Phoenix world. **The mammoth book of best british mysteries** Vampire Liam's secret negotiations with the House of Phoenix cause him to be accused of treason against his clan his punishment is imprisonment with his human lover as the only source of blood but their love holds the key that may free them. **The mammoth hunters read free online** (4 stars - a nice little carve out from her series Holder does a good job of developing Liam and his history) *** A Stand-up Dame - Lilith Saintcrow - A soft touch for a dame in danger this PI returns from the dead to solve his case. **The mammoth hunters read free online** More on the horror side the vampire and

the turning were truly icky though I debated giving an extra star to the author for inspiring such strong negative feelings with so few words.

book of historical whodunnits The Righteous | Jenna Maclaine - a sorceress and a king plan to make a law enforcement group for vampires by ensuring the meeting between a vampire and a vampire slayer. **The mammoth book of historical whodunnits** \ 2 stars I didn't hate the characters but again there was the whole relationship moving at the speed of light thing going on, **The mammoth book of extreme science fiction** It didn't really pull me in and I felt like the author was shoving unnecessary things to make it more interesting however that didn't work on me, **The mammoth book of best british mysteries** Dreams | Keri Arthur - the characters from the Jensen Riley Guardian series appear sharing a dream before the danger hits \ 3 stars I liked this one more than the actual series, **The mammoth book of best british mysteries** This one is told in Quinn's point of view instead of Riley's and there was more action than sex: **The mammoth book of best british mysteries** which is probably why I gave it more stars than the series. **The mammoth book of best british mysteries** Love Bites | Kimberly Raye - a vampire slayer fails her final test when she takes the vampire she stakes home instead of killing him \ 3 stars another one I liked. **The mammoth book of historical whodunnits** 5 stars the relationship again was not rushed because both characters already knew each other and had feelings for each other before the story began. **The mammoth hunters read free online** Coming Home | Lilith Saintcrow - recruited by an old flame Liana works with him to stake his sire \ 2 stars nothing extraordinary for me. **The mammoth book of historical whodunnits** Didn't get into it really and I had to do a few re-reads before I understood what was happening, **The mammoth book of best british mysteries** Adams and Cathy Clamp - a cop deals with a B&E surprised to find that the intruder is her old partner. **The mammoth hunters read free online** It was another one of the relationships where both characters already knew each other so the actual romance was believable: **The mammoth book of historical whodunnits** Dancing with the Star | Susan Sizemore - after receiving a telepathic cry for help at a car wreck a vampire dreams of dancing with a man \ 1: **The mammoth book of historical whodunnits** They know nothing about each other practically except for what they've shared in the dream and that the man is a famous movie star yet they definitely trust each other, **The mammoth book of extreme science fiction** waaaaay too cheesy for my liking Play Dead | Dina James - after meeting a woman a vampire challenges his clan Council for the right to choose his own bride \ 2 stars: **The mammoth book of historical whodunnits** infatuation was too quick to me and it didn't really hold my interest all that well. **The mammoth book of extreme science fiction** there wasn't really a romance but the story offers a the potential for one. **The mammoth hunters read free online** The woman probably was convinced too quickly of her belief that vampires were all evil but this is a short story so it was reasonable, **The mammoth book of historical whodunnits** All I really got is that the two vampires wanted to remember each other after they forget their memories for a new year, **The mammoth hunters read free online** The Sacrifice | Rebecca York - a princess willingly sacrifices herself to a blood-drinking 'monster' to save her father's kingdom \ 3 stars I kinda liked this one: **The mammoth book of best british mysteries** It held my interest and the characteristics of the vampire were a little different, **The mammoth book of extreme science fiction** The foot-licking kind of grossed me out though especially because it was the sole, **The mammoth book of historical whodunnits** The romance was good because it was quite a while before anything actually happened between the love interests: **The mammoth book of historical whodunnits** The Day of the Dead | Karen Chance - Tomas from the Cassandra Palmer series is a lead role in this: **The mammoth book of historical whodunnits** His plan to kill his sire mixes itself with aiding a Jinx to save her brother \ 2: **The mammoth book of historical whodunnits** 5 stars Never really liked Tomas so right off I wasn't particularly interested in the book but it did turn out to be an okay read. **The mammoth book of historical whodunnits** One minute he's a 'disgraceful drunk and an immoral and unethical investigator' and the next she's stripped her top off for him, **The mammoth book of best british mysteries** Kiernan - a sick woman is found by a vampire and turned \ 1. **The mammoth book of historical whodunnits** This one is girl on girl so if you're not okay with that don't read it: **The mammoth book of historical whodunnits** It was even kind of horrorish and since the author is known for horror it does kind of reinforce that idea, **The**
