Especially one who was willing to do his part to make it so[1]

The more we encounter the same reservations. I loved this book. When it ended I felt the rare sensation of regret. He is my soul. The timeline of this story does jump around a bit. I never found the time sequence to be confusing. Initial Thoughts I am a bit disappointed with this one. The last part of this book fell really flat to me. This was probably more of a 2.5 star read for me but I am rounding up for now. I loved Champion and Sporca's journey and point of view. The story lacked pace in places and was over wordy. Still an enjoyable read. I love the character. Insightful observant wise and wonderful. Yes he's a dog. He's there in 1815 when Napoleon meets Waterloo. My willing

suspension of disbelief however kept kicking in. I was barely able to stay in the story. Be strong. Brutal stuff beautifully written. 9781335580290 The future can offer both hope and despair.
