Harmony Raines Awesome !The last is always the best. I hate that the story has ended. Well it actually continues in my mind :) ;) .I read this title through my Kindle Unlimited subscription. With so much happening it keeps one riveted till the end. Loved the ending for the stepmother. This is my honest review of this book. This is different in that the main couple is older. She is a Social Worker who loves kids. They do find each other each stunned speechless. (He's a George Clooney look alike. * (I like to be able to picture my characters. Nothing about the other. The epilogue was very nice. Probably the best one in the series. "In a car. Fiona smiled indulgently." Harmony Raines I. and then he does. Then he & Fiona find each other. This is a lovely novella of maturity competence and love. The blending of families is heartfelt. Quick read but so heartwarming and rewarding. Harmony Raines 3.5 Stars - Harlan and Fiona's story was O.K. Harlan has recently sensed his mate in Bear Creek. He is almost ready to give up his search. She removed what cloaks her and discovers her mate. It was an O.K. read. I wanted more depth. And this story did not let me down. Fiona is a dragon in hiding. Fiona has hidden away for centuries. Only here has she acknowledged she is a dragon shifter. It allows them to trust to believe. But something is stirring out there. Something that calls to her heart and her soul. She knows it's time to reveal her true self. Whatever the cost. And from experience Fiona knows the cost only too well. Two girls are handed to social services by their stepmother. But these two girls are special. Email: harmony@harmonyraines. Email: harmony@harmonyraines. {site_link}.
