St.this book will be the reason! Yes it is a mystery book. The things Jane finds out. Great job! I voluntarily reviewed a copy of this book.) Everything a mystery should have can be found right here.I fell in love with the heroine from the absolute beginning. (Team Shepard all the way!)The plot moves quickly. (I did enjoy the audible version it just takes longer). Jane has still not found her mom. Love this new series!If you've read any of Cynthia St.Jane's had a bad day/week. Which is impeding her from her prime objective. Finding her mom. Sure Alexis has carved out a niche for danger. Maybe Jane doesn't know her mother at all. Maybe to find her Jane has to face the truth. She just hopes she can recognize it when she sees it. It could save both their lives. Aubin is a wild ride from first page to last. And then her mom disappeared on graduation day. That's when the fun begins. I'm ready to read it now. All of the above opinions are my own. OK.I liked this book. I liked the characters especially Jane Valentine and Sheppard. I thought the plot/action unraveled itself at a good pace.that is until the end. And lets talk leading men. Cynthia St. it's THAT good! Private Lies (Jane Avery Mysteries #1) Wow. To be honest she's not having the best day/week
