

Hunted (Haven Realm Chronicles, #1) By Mila Young I never could have imagined that the "red" in Little Red Riding Hood could stand for Hot! Hot! Hot! That is exactly what happened in Mila Young's HUNTED!Scarlett is a healer. Mates? Is it possible she has fallen for the sensual and sexual magnetism of three men?How can a human female find love and lust among shifters? How can Scarlett be so sexually charged when the very existence of the shifters is in danger? Mila Young knows and she has shared this fresh and fabulously delicious tale in a grown up version of Little Red Riding Hood. After reading this book however I think I may change my mind! Not only was the book well-written it had an interesting plot was hard to put down and had very interesting characters. Each book is going to be a standalone in the same universe and I am so glad there is going to be more! If you like the reverse harem genre you really really need to read this book; it was great! Highly recommend! Thanks to the author for the e-book which I reviewed voluntarily. Mila Young I really enjoyed this take on the classic story of red riding hood! Mila Young has written a fantastic book and it is hard to believe that this is her debut book! This is book is well written and is an exciting story that keeps the reader captivated throughout the whole book! I love Scarlet's character she is strong sassy honest and caring. There were a number of LOL moments between Scarlet Nero Oryn and Dagen but also some real sorrow and hardship! Scarlet's moments with all three of her guys are special and Mila Young does a great job portraying their relationships. Another great thing about this book is the supporting cast and I cannot wait to read Bee's story in Cursed! Fantastic new RH series that has a very interesting take on some classic fairytales. In her spare time she loves pretending shes a mighty warrior walks on the beach with her dogs cuddling up with her cats and devouring every fantasy tale she can get her pinkies on. In her spare time she loves pretending she's a mighty warrior walks on the beach with her dogs cuddling up with her cats and devouring every fantasy tale she can get her pinkies on:

He's more wary and scared of her and her humanness so he fights the bond: I like how she owned an herbal shop and her magical gifts were kinda cool and Hensley life saving since she could enhance herbs particularly lifesaving ones: There was some foreshadowing in the book but even without I did find it a bit predictable. I read via audio and some of the dialogue was a bit cringey: It was pretty lighthearted and while over the top I found it fun. The end sort of alludes to what I'm assuming will Ben the next book with her bff. I'm looking forward to it.

My what big wolves you have my dear, When evil is threatening the wolf shifter packs of the forest she becomes the last hope to heal a dying alpha one of three who all have an intense attraction to Scarlett, It will take all of her healing talents and her magic to save the shifters but it will take only her heart to tell her she has found her perfect mates, Sexy sassy and even humorous at times this tale will warm up any cold winter night!I received a complimentary ARC edition from Mila Young! This is my honest review: Series: Haven Realm - Book 1Publication Date: January 16 2018Publisher: Mila YoungGenre: Erotic Fairy Tale Print Length: 242 pagesAvailable from: AmazonFor Reviews & More: <http://tometender.com> Mila Young It seems like this book just couldn't decide what it wanted to be, It had a lot of modern slang crude humor and things that were a bit out of place for the world that this was set in. Where does food come from? How are textiles made? Who rules? Create a culture to give depth to a book. Also the map was a mess but y'all know how I am about maps: They have to be logical and the rivers did not make any sense whatsoever. This book could have been good if it had just taken a specific direction and stayed on that path: Mila Young This was so cringeworthy and awful and I don't know how I finished it, I think it's only because I didn't have another book already lined up that I did. It's supposed to be a fairy-tale retelling but there's no world-building no character growth no romance. Just sex for the sake of mating no bond or reason behind it except for an animal drive. This is one series of stand-alone retellings that I will not be continuing, Mila Young Okay story but the writing left a lot to be desired. Mila Young This was a cute if somewhat cheesy RH (loose) retelling over Little Red Riding Hood. This was a super short read so a lot of the scenes particularly the relationship and getting to know each other was sped up,

I'd definitely classify this as instalust though for one of her mates her friend B is nothing like the demure book smart/shy Belle we are used to: Scarlet a healer lives nestled in the forest surrounded by humans on one side and wolves on the other: But when a rogue wolf attacks her she's rescued by another pack and taken deep into their den to perform her healing magic on an injured Alpha, The wolves in the forest are under threat from a mysterious affliction and Scarlet is the only hope they have left, Faced with a mixed pack of threatened shifters Scarlet must use her wits and magic to survive and unravel the strange affliction now affecting the wolves. All while trying to navigate an overpowering attraction to not just one but three of the Alphas, Witches wolves magic and love intertwine in an exciting mystery that finds its own unique 'Happily Ever After. ' Note: Each book in the Haven Realm series is a standalone book, Hunted (Haven Realm Chronicles #1) Okay so I enjoyed it but I didn't like it . The book was fully focused on spice and not so much on world-building or character development: But if you want some spice and moments where you think wait whut: I guess it is an okay book to read (don't advise the audiobook tho (the woman doing man voices isn't my steamy dream lets just say). Mila Young Mediocrity strikes again This was definitely in need of an editor with missing words incorrect words and mixed up character names. There is almost no actual character development beyond Scarlet and Dagen who are described in a paragraph each rather than through actual storytelling. There is no romance no relationships beyond the whole mate drive and sex: The premise was interesting enough and had it been handled better this could have been a rather interesting story: I will not read the other books in this series and wouldn't recommend this one: Mila Young This is the first book of the Haven Realm series and this first book is a reverse harem crossed with a fairytale retelling story, I am fairly new to the reverse harem genre and I like them but I'm not a huge huge fan. I think this was the best reverse harem book I've read up to now, Of course the ones I've read before were great but this one was just better, Smooth is the best word I can come up with to describe this book: I am amazed at how much I loved it from start to finish and I cannot wait to see what the author comes up with in the next installment. It is hard to pick favourites out of her guys but for me I think Oryn is a little ahead as my favourite: Highly recommended!! Mila Young For complete review check out my blog at <https://booksaplentybookreviews>: Mila Young Mila Young tackles everything with the zeal and bravado of the fairytale heroes she grew up reading about: She slays monsters real and imaginary like theres no tomorrow, At night she battles with her mighty pen sword creating fairytale retellings and sexy ever after tales, Mila Young tackles everything with the zeal and bravado of the fairytale heroes she grew up reading about: She slays monsters real and imaginary like there's no tomorrow: At night she battles with her mighty pen sword creating fairytale retellings and sexy ever after tales. And the cheese factor was high I won't lie.blogspot. If you are going to do a fantasy book commit to it. Do some world building. Create a system of government that makes sense.This book could have been set just about anywhere. There was very little personality to where they lived. Instead it flip flopped between being mundane and fantasy. And it was kind of gross.The flirtation and 'dirty talk' some were a little cringy. Mila Young Little Red Riding Hood. Three Big Bad Wolves. A Poisonous Scheme.Is that logical?... I don't think it is. The plot was meh. It's a shame that it wasn't. Same with the fairytale retelling genre.blogs. By day she rocks a keyboard as a marketing extraordinaire. By day she rocks a keyboard as a marketing extraordinaire. {site_link}
