Which is a shame. I needed it for some of the slang. I appreciate the free copy. I liked Dhata and I liked the location. I kind of imagined the Tampa Bay area after a war. I think I might like this series. Short. Until now. It was a good mix. But I liked him and the book all the same. I look forward to reading more about him. And Tucker McDougall did a marvelous job with the narration. The world comes alive. The vibe reminds me of Blade Runner. That part almost reminds of the old movie Serpico. It was not too distracting but I just wondered about it. Some terms used are not explained clearly either.) Just not my cup of tea. 2. I'll definitely be reading more from Greg Dragon. (RIP Marley January 20 2014 - July 24 2018). I fully recommend this series to all
