(mostly) beautiful illustrations! Evelyn McDonnell edits this volume! Contributors include Annie Zaleski Theo Kogan Lucretia Tye Jasmine and other great writers! What could possibly go wrong? Unfortunately there are SO MANY copy-editing errors a few head-scratching factual ones (Beyonce's nickname among her fans is KING BEY? Really?) and some questionable language choices (describing audiences as deaf blind and dumb for not getting the brilliance of The Runaways? W H A T) that it detracts from the quality of the book overall. **Women who rock sky arts** It's a snippet into their history and the profound effects they've had on music culture. **Women of rock album** I really enjoyed learning about artists I don't know well and smiled to myself reading pretty much what I already knew about the artists I know and love. **Women Who rockz** It is a lovely compilation of women who made a difference to the world of music. **Women who rock music** A gorgeous gift book it includes a stunning specially commissioned full-color illustrated portrait of every musician and group: **Kindle Women Who rockstar** Today in a world traditionally dominated by male artists women have a stronger influence on popular music than ever before. **Book women who risk** Organized chronologically the book profiles each artist and places her in the context of both her genre and the musical world at large: **Women Who rockzfx academy** Sidebars throughout recall key moments that shaped both the trajectory of music and how those moments influenced or were influenced by women artists: **Women Who rockzfx academy** With full-color illustrated portraits by women artists Women Who Rock will be THE long-awaited gift book for every musicfan feminist and female rocker young and old, **The women of rock** Organized chronologically the book profiles each artist and places her in the context of both her genre and the musical world at large: **Women in rock book** Sidebars throughout recall key moments that shaped both the trajectory of music and how those moments influenced or were influenced by women artists, **Women in rock book** With full-color illustrated portraits by women artists Women Who Rock will be THE long-awaited gift book for every musicfan feminist and female rocker young and old. **Book women who risk** If that weren't enough each artist gets their own gorgeous illustration all created by extremely talented female artists. **Kindle Women Who rocky** One of my favourite additions to the book was a playlist suggestion to go along with each chapter, **Women of rock cd** I read listened and learned about old favourites while discovering new artists that are now in rotation on my playlists, **Women Who rockzfx** I had the opportunity to discuss this fantastic book with Evelyn McDonnell on my podcast Muses and Stuff. **PDF Women Who rock** To listen click here 0316558869 Strap in for this one peeps, **Women**
