English Good book. Adventure action and a fantastic world to play in. Loved all the characters and the storylines. Great introduction to the series. Four characters that are so different but all fascinating. And soon they will all collide. And both happened IN FRONT OF HIM. like can he get a break. But Mehta. I LOVE THIS MAN WITH MY ENTIRE BEING. He had to kill off Irwin and Colburn. But 3 out of the 4. This story packs it all in and is hugely satisfying. I hope the bad guys get their just deserts. It was worth sticking it out. I'm looking forward to reading further. Mehta is an assassin known as Requiem. Ben Wolf has created an intriguing morally gray MC. Although it's well written it wasn't for me. It got really interesting toward the final chapters. I loved the reference to the girl from Requiem. Shatterstone ends on a cliffhanger. I seriously admire the world-building gone into this book. They are definitely not HEA stories. I'll definitely be continuing the series. Four exciting missions. Four page-turning novellas. As he leaves he swears to get Wafer back someday. Get it now. The Crimson Flame is no exception. I MUST know what happens next. Each story leaves you hanging like a season finale
