A Highly Recommend book. Can't wait for the next book in this Series. I voluntarily reviewed an ARC of this book. 338

This series just gets better and better. So many twists but so worth the read. Way to go Mary and Donna keep us guessing. This thriller is intense and another nail-biter. I am an ARC member and this is my honest review.asking myself why before even finishing the first one. I am relentlessly hopeful. But the editing was great and author a talented wordsmith.just IMHO being very lazy on development. The emotions and actions are vivid and captivating. My heart hurts for Nick. I am hoping things change or develop in that relationship. Puppets. Toys. That's all his captives are to him. This time she's not a child. And the master is only a man. Scared sure but she just needed to know. Needed to see with her own eyes. Scared sure but she just needed to know. Needed to see with her own eyes. This isn't to say she's a loner.Come on open a book. Mary dares you to look under the bed with her. {site_link}.
