

Shadowlands Sector, Two (Shadowlands Sector, #2) By Mila Young **Shadowlands Sector, Two kindle app** Meira is running from her fated mates and the undead who swarm the castle - believing she's better off alone as she fights her human illness and the fear of what will happen if she ever transforms into the wolf that lurks beneath the surface. **Book Shadowlands Sector, two quests** Bardhyl - the Viking wolf introduced late in book one - is also on the hunt for the rogue Omega and when she stumbles on him in a trap their attraction for each other soon leads to sealing their bond. **Shadowlands Sector, twoandahalfmen** The story in its entirety could be a 4 star so if you are getting the books from KU or the library get the full set it won't be a too frustrating reading experience. **PDF Shadowlands Sector, two guide** A third alpha male is added to the mix - it would seem that Meira's wolf isn't happy with just 2 fated mates! The scenes between Meira and her new mate are scorchingly hot and we also get more scenes with Dulsan. **Shadowlands Sector, Two bookkeeping** I do feel Lucien hasn't been given his fair share of her time but I did enjoy how Meira's relationships with all three males have evolved and I liked how their personalities and characteristics have also been developed. **Book Shadowlands Sector, two quests** I wanted the author to continue with that angle of the story so that I could learn what happens to her but I'm hopeful that there is a spin-off story of the girl and those she was looking for. **Book Shadowlands Sector, two** There is of course further danger near the end of the book that I was beginning to wonder when these particular ones would pop back up again as a battle for control is soon to ensue in one way or another. **Shadowlands Sector, twoll** A part of me is curious though as to if the author had taken the story in a different direction - Meira learning the truth in a certain moment would she still have run knowing the truth? Or would that have changed her thought process? I really did enjoy this book but watch out for the cliffhanger at the end! I saw that it was the end of this book but I still turned the page hoping for more or at least a hint of what is to come.

Not rated on purpose. Each instalment is just dropped off where ever. Shadowlands Sector Two (Shadowlands Sector #2) 4. She focuses on herself when she's running from the men. I am rating this book 4.5 out of 5 stars. So I have to do what I've always done best. Run. Even though it's killing me to go. I can't save myself but I can save them. I can save them from seeing what I will become.whatever the cost. I fmc is borderline annoying. Until the last 10% of the book. Here for it 100%. I like how quick it is to read this little trilogy. A nice change of pace for me for sure. I don't want her to be with Lucien or Bardhyl. By day she rocks a keyboard as a marketing extraordinaire.
