The King's Hall (Life of Galen #4)I wrote this book and I have a serious soft spot for both Galen and Alcuin who I have been living with for years now. **The hall of the kings** Which although it's my day job is already the fourth instalment in the "Life of Galen" series by Marina Pacheco a historical mystery series set at the end of 10th Century Anglo-Saxon England and featuring Brother Galen an intelligent somehow shy young monk who got stuck into monastic life rather by order of birth than choice due to his lack of physical strength and military skills. **Book The King's halle** Brother Galen has come a long way from that shy young lad that enter the monastery proving not only his excellent skills a manuscript copyist but also his superior intelligence to navigate the politics of the time. **PDF The King's halloween** After the struggles of their journey Galen and Alcuin have finally arrived at the King's Hall to produce the commissioned illuminated book in honor of the King a book intended to avert the Apocalypse (the events are set three years before the turn of the first millennium AD as the advent of the Apocalypse was not only all the frenzy but also believed to be very much real). **Book The King's halle berry** But the Apocalypse turns out to be the least of Galen's concern as has to confront the situation at court where a long-lasting blood feud gets tangled with a forbidden romance and Galen finds himself once more at the center of the situation threaten by the ones who knows his secret this time Galen has to stand for himself not even able to rely on Alcuin who has problems of his own. **Book The King's hallelujah** After almost dying in his last adventure (Kindness of Strangers Book 3) and been confronted with the meaning of his own existence Galen has finally found the inner strength to confront the ghost of his past while resolving the conflict at hand in the process. **The King's Hall Science fictionmanai last** Mariana Pacheco portrays 10th Century England in a fully realistic way far away from romantic conceptions and make believe scenery this is an thrilling tale about a very much real young man dealing with the consequences of his own role in a life path he has no real choice in while still fighting to regain as much agency as possible and learning the meaning of life while fighting the struggles every new day throws in his way. **Kings hall postcode** This is a well-written carefully research and successfully crafted historical series that follows closely the path carved by Ellis Peters' Cadfael and Peter Tremayne's Fidelma of Cashel while differing from the lighter "whodunnit" formula to center in Galen's biography as an anchor point to highlight the historical framework of the tale. **The King's Hall Science fiction vs** The King's Hall (Life of Galen #4) The King's Hall Life of Galen Book 4By Marina PachecoReviewed August 3 2021After several
