

Star Wars: Return of the Jedi Sketchbook By Joe Johnston :

1983: by Joe Johnston and others- Original drawings from the most exciting chapter in the greatest space fantasy of all times, Star Wars: Return of the Jedi Sketchbook Really neat to see the evolution of various visual elements of the movie. I especially love the chart of speed and maneuverability of different ships! Star Wars: Return of the Jedi Sketchbook Another art/drawing-collection tie-in to the Star Wars phenomenon. Star Wars: Return of the Jedi Sketchbook
